Why Do Agriculture Groups Need Specialty Services?

Brightly's Agriculture Group Protection Services allow you to better meet the emerging everyday challenges. Our service offerings can be bundled to create a broader insurance protection package to promote security and wellbeing.

We offer a full suite of comprehensive services focused on agricultural groups to protect every aspect of the business and family — from natural disaster and flood preparedness to family caregiver services to cyber security and protection.

What Speciality Services are Included?

NATURAL DISASTER AND FLOOD PREPAREDNESS

We look across agricultural groups and property and assess the risks for floods and natural disasters. We will provide guidelines and tools to prepare for a possible disaster, and even help groups recover and organize property claims and paperwork should the unimaginable happen.

FAMILY CAREGIVER SOLUTIONS

We provide support services and resources to help families when someone becomes a full or part time caregiver to a loved one. Our services help manage your loved one's medical needs, keep track of finances, and manage their own stress..

FAMILY CYBER PROTECTION AND SECURITY

We can analyze your digital footprint and identify many weak links. We help resolve many existing threats, and protect against future ones. If a breach occurs, we offer urgent assistance, fraud resolution, document replacement, and more to help agricultural groups recover quickly.

BUSINESS CONTINUITY AND GROWTH

We help agriculture groups grow their business, and put plans in place to keep their business intact if a disaster strikes the farm or family. We help bolster the group's market position, organize their business strategies, and implement continuity and reputation management plans..

Problems Preparing for Natural Disasters

- Communication and collecting information
- Underestimated threat of Katrina
- Felt rushed and disorganized
