

Specialized Protection Services for Essential Workers

Why Do Essential Workers Need Specialty Services?

Essential workers are the ones who keep things going for our families in times of need. Now it's our turn to protect them. Brightly's Essential Worker Family Protection Services cover a range of potential challenges facing families. The services can be bundled to create a broader insurance protection package for first responders and their families. We offer a full suite of comprehensive services designed to protect their family and their future — from natural disasters to family caregiver services to cyber security and protection and COVID-19.

What Speciality Services are Included?

COVID-19 SERVICE

The global pandemic has changed operating models around the world. Our COVID-19 Personal services help essential workers and their families adapt to this new normal with unbiased and vetted information resources that support you and your family.

FAMILY CAREGIVER SOLUTIONS

We provide support services and resources to help essential workers when someone becomes a full or part time caregiver to a loved one. Our services help manage the loved one's medical needs, keep track of finances, and manage their own stress.

FAMILY CYBER PROTECTION AND SECURITY

We can analyze an essential worker's digital footprint and identify many weak links. We help resolve many existing threats, and protect against future ones. If a breach occurs, we offer urgent assistance, fraud resolution, document replacement, and more to help your employees recover more quickly.

NATURAL DISASTER AND FLOOD PREPAREDNESS

We look at your property and assess the risks for floods and natural disasters. We will provide guidelines and tools to prepare for a possible disaster, and even help essential workers recover and organize property claims and paperwork should the unimaginable happen.

First Responders with PTSD and Related Issues
