

Specialized Protection Services for Faith Groups

Why Does Your Faith Group Need Protection Services?

Brightly's Faith Group Protection Services allow you to be proactive in taking care of your faith community and recover when disaster strikes. Our service offerings can be bundled to create a broader insurance protection package for faith groups of any size.

We offer a full suite of comprehensive services focused on the faith group environment specifically.

We protect every aspect of your operations and community involvement - from cyber security to disaster preparedness.

Churches Facing Permanent Closure Due to Lack of Donations

■ Permanently closing ■ Staying open

What Protection Services are Included?

COVID-19 Services

This global pandemic has fundamentally changed operating models around the world. Our COVID-19 services help your members adapt to this new normal with unbiased and vetted information resources that support businesses and families.

Business Growth and Continuity Plans

Business survival requires growth and continuity plans. To achieve growth we optimize growth strategy and how you appeal to the community. Continuity plans are essential to survive a disaster or if a tragedy strikes. Reputation management is part of growth and continuity to secure and maintain public image.

Commercial Cyber Protection and Security

Your members can suffer devastating losses from identity theft or a privacy breach. We analyze your digital footprint to identify any weak links and help resolve threats. If a breach occurs, we offer urgent assistance, fraud resolution, document replacement, and more to help your clients recover quickly.

Natural Disaster and Flood Preparation

We assess the risk to your properties for floods and natural disasters. We provide guidelines and tools to prepare for a possible disaster. If disaster strikes, we help your members find safety in the immediate aftermath, and then help them recover and resume business operations quickly by organizing claims and paperwork.
